

Give us our freedom!

**TRANSPORTATION
FREEDOM DAY**

March 11th

**How many days a year do you work
to pay for your transportation?**

**Today, the typical Chicago household spends
almost 20% of their annual income on
transportation costs, that's 70 days worth of
income.**

We are spending more of our annual income this year to cover our transportation costs while public transit service becomes worse.

Increasing funding for public transit projects is the best way to create jobs while saving commuters money.

**Call Mayor Daley today and tell him to fight
for our freedom by prioritizing public transit:**

(312) 744-3300
