I-GO Car Sharing is an innovative Chicago-based nonprofit organization committed to providing economical and environmentally sound transportation choices. Our goals are to reduce car ownership rates, lower family transportation costs, reduce urban congestion, and improve air quality. I-GO, a nonprofit, grass roots organization, has seen dramatic increases in its member base since its inception in 2002.

I-GO offers its thousands of members access to more than 200 vehicles, often within a five-minute walk of their homes or work. I-GO members reserve a car online or by phone and then pick up and return the car to its reserved parking space. Members pay an hourly rate that covers gas, insurance, the reserved space and vehicle maintenance.

I-GO is convenient, affordable, reliable and great for the planet. This CNT affiliate prides itself on superior customer service and on saving Chicago residents several thousand dollars per year compared to the cost of car ownership. I-GO's fuel efficient fleet, which includes many hybrid vehicles, also sets it apart from the competition.
