

Public Involvement Toolkit: A Resource for Increasing Stakeholder Participation in the Planning & Development Process

INCLUDES THE
FOLLOWING:

Instructional Monographs

- *Outreach for Public Involvement* Describes how to plan for drawing stakeholders and meeting participants into the process (Brochure used in CNT's outreach process is also included).
- *Tools for Public Involvement.* Describes tools that are important for consensus-building during a public involvement process.
- *Setting a Tone for Public Involvement.* Describes how to create an open, respectful, and energetic environment in a public meeting

Who Should Purchase The Toolkit?

- Citizens' groups
- Community Based Organizations
- Public Interest Professionals
- Environmental Justice Practitioners
- Public sector planners

**Just
\$35!**

Regional Reports:

All eleven reports included in the report are the same reports used in the official CNT process and are examples of what kind of feedback should be developed from public meetings.

Changing Direction: Transportation Choices for 2030.

The synthesis of all regional reports. Can be used as a model document for your public involvement process.

A New Voice:

A video documenting the public involvement process. Features participants in CNT's process

CNT CONSULTING:

*“Building More
Livable and
Sustainable
Communities”*
